SEVENTY-FIVE MEN OF NEARLY

Pan-Pacific Weekly Mid-Day Feature Starts Out With **Backing of Boosters**

Seventy-five men of nearly a dozen races gathered today in Cooke hall, Y. M. C. A., for the initial mid-day luncheon of the Pan-Pacific club. The keynote of the affair was to set an example by showing that in Hawaii men of every race can live in peace, working for the benefit of all, and showing the rest of the world that race prejudice can be made a thing of

the pest.
Afexander Hume Ford presided, and in his usual happy way introduced everyone. Three minute talks from representatives of each of the peoples present were features of the luncheon and showed the spirit of Inter-Pacific

C. K. Al spoke for the Chinese, calling attention to the fact that his race was the pioneer one to settle here. He said Chinese born under the American flag become true American citizens. Editor S. A birst of applause greeted Lorrin indrews when he said that if the people of the Hawaiian Islands can give the world proof that race differences can be forgotten and the races blended into "one tribe," as Jack London suggested, a bigger and finer thing will have been accomplished by the people of Hawaii than has been done in the

istory of man.

Alexander Hume Ford's remarks were as follows:

Today in most of the large cities out the Pacific there is a weekly cheon organization affiliated with Hands-Around-the-Pacific move-in Honolaly the Pan-Pacific lands-Around-the-Pacific movement, which is the mother organization of which is the mother organization of which we are all children. The heads of the various Pacific governments are the leading spirits of the Hands Around-the-Pacific movement, as the prominent men of every nationality in Hawali are the leaders and workers in this Pan-Pacific Club, a club that might be said to have been born on the beach at Walkiki, with Jack London, the preacher of the Language of the Tribe, as its godfather and as its sponsors, men from each of our various nationalities, who met with Mr. London to learn the language of the Universal Tribe, which

COMPLAINS OF STREET CAR SERVICE.

Honofeiu, Aug. 3, 1915. Editor Honolulu Star-Bulletin.

Sir: I desire to voice a complaintone that has become more and more common on the streets of late-with

Honolulu street-car service. When this system was inaugurated in 1901, the ten minute schedule maintained was adequate to the community needs, but today it is wholly different. Then we had a population of but 40,000 while today we have about 65,000, and yet, despite this increase of over 60 per cent in the population there has been no change whatever in the street-car service-no effort whatever made to keep pace with the de-mands and requirements of the com-

Today, as then, a person who has just missed a car must wait ten pre-cious minutes on the street corner for the next car. And incidentally, no effort is made to have cars connect at junction points, but on the contrary, it seems to be the studied practise to have cars leave these points just as the connecting car approaches within

Redmon, Corps, on duty at these headquarters, will be discharged from the army by his commanding officer, by order of the secretary of war, for the convenience of the government, to accept in favor of the plaintiff. It is ordered that the plaintiff recover \$482.55 and that the plaintiff recover \$482.55 and that the plaintiff recover \$482.55.

There is not the slightest excuse for any of these shortcomings. The street-car company "coins" money, and the crowd one finds upon almost every car, with nothing but standing room at certain hours of the day, so that many tired work and business men find out how it feels to sit in one of the seats, certainly points to the urgent need of a five minute service.

But the company has a monopoly

and the directors may comfortably and unconcernedly sit back in their cosy chairs or whiz by in their luxurious motor cars, wholly uninfluenced and indifferent to the requirements and comfort of the less fortunate public.
